UBT - University of Business and Technology

Computer Science and Engineering
Prishtina - Kosovo

October 2023 - Present

Association Loyola Gymnasium

General Gymnasium
Prizren - Kosovo

September 2019 - June 2023

Professional Experience

Workflow

Data Entry Position

Prishtinë

May 2024 – September 2024

- Performed accurate data entry with a focus on minimizing errors
- Efficiently managed and organized data to meet deadlines and project requirements
- Utilized software tools such as Microsoft Excel and Google Sheets for data processing
- Maintained data confidentiality and adhered to company policies and regulatory standards

Projects

- **Hotel Management System** **React, NodeJS, MySQL • [Github](#)**
 - A full-stack web application that allows hotel staff to manage bookings, customer data, and room availability. Features include user authentication, real-time room status updates, and a responsive admin dashboard.
- **Barber Booking System** **HTML, CSS, Javascript, PHP • [Github](#)**
 - Worked as part of a team to develop an online booking platform for barbershops. Users can schedule appointments by selecting services and time slots, while administrators manage and monitor bookings via a dedicated admin interface.
